Languages

English (C1 Aptis certificate)

Arabic (native)

French (B2)

German (beginner level)

Center of interest

Developing and playing video games
Solving riddles
Making cosplays

Profile

I'm a Full stack developer with solid knowledge of programming languages, curious and eager to innovate and contribute to the construction of functional applications, I also enjoy stepping outside of my comfort zone by trying new technologies.

Professional experiences

Software Engineering Intern Aug - Sept 2023

CNCT (Centre National De La Cartographie et de la Télédétection)

Development of a geospatial data management application sourced from a geoportal, with the primary goal of enhancing data visualization and interaction.

- Modeling the geospatial database using PostGIS.
- Integration of Leaflet, to create user-friendly interactive maps.
- Implementation of GeoServer to serve geospatial data layers swiftly and efficiently.

Technologies and tools : Nest.js, React, Postgresql, PostGIS,...

IT maintenance technician March - June 2023

Riadvice

- The maintenance and monitoring of servers.
- Creating dashboards for hosts, items, templates and triggers.
- Integrating Ansible into our workflow and automating server configurations through the creation of playbooks.
- Use of Jenkins to create pipelines to trigger Ansible playbooks.

Technologies and tools : Zabbix, Ansible, Jenkins, Remmina.

Software Engineering Intern June - Sept 2022

TogTog Startup

Development of an e-commerce application that Integrates AI for a better user experience.

- modelling of the NoSQL database.
- Creating strong authentication using JWT.
- Implementing socket.io in the real-time part of the platform.

Technologies : Express.js, Node.js, MongoDB.

Graduation internship Feb - May 2021

BIAT (Banque Internationale Arabe de Tunisie)

Design and development of an application web management of bank accounts and credits.

Technologies: SpringBoot, Angular, MySql

Skills

programming languages :

JavaScript - TypeScript - Java - C# .

Frameworks and Libraries :

Express.js - Node.js - Nest.js - React.js - Angular .

Database :

SQL - PostgreSQL - MongoDB .

Tools :

Visual Studio - Adobe Photoshop - Adobe Illustrator - Unity - Maya - Zabbix .

Education

Software engineering degree

Higher Institute of Arts and Multimedia Manouba

Sept 2021 - Present

**Bachelor's degree in computer science
and Multimedia**

Higher Institute of Arts and Multimedia Manouba

July 2021

Baccalaureate in mathematics

Lycée Bachir Nabheni, Hammam Lif

June 2018

Academic Projects

Design and development of a study management website.

Technologies: Node.js, React, MongoDB, JS.

Augmented reality shooter game development.

Technologies: Unity, C#.
